About Us

Structure Wise Ltd can design and build your dream structure for work or leisure.

Here are some details about us:

- Established in 1990
- Proudly New Zealand owned and operated
- We are a one stop shop from concept plan to completed building
- Our designs are engineered to your specific site
- We offer custom design and build options
- Kitset options are also available
- We are Licensed Building Practitioners and Registered Master Builders so you can build with confidence.

TECHNICAL SPECIFICATIONS:

- *We design your building to suit the size you want. See inside this brochure for our range capabilities.*
- *Your building can be constructed from hot rolled or cold rolled steel, precast concrete, timber, or a combination.*
- *All steel work is painted or galvanised to industry standards.*
- *All our buildings use **Zincalume™** or **Colorsteel®** 0.40 gauge.*
- *Our buildings come with comprehensive warranties*

Hot Rolled Steel Buildings

COMMERCIAL AND INDUSTRIAL RANGE

Our industrial range gives you the space you need to get the job done.

We can incorporate all your design requirements to create heavy steel portal buildings with versatile features. Suitable for a wide range of businesses and industries, call us to talk through your requirements.

RANGE:

We recommend this range for bay widths up to 14m and portal spans up to 60m.

Cold Rolled Steel Sheds

FARM, COMMERCIAL AND LIGHT INDUSTRIAL RANGE

Our farm, commercial and light industrial range offers strength and versatility with ease of construction.

We can incorporate all your design requirements to create a cold rolled steel building with versatile features. Suitable for a wide range of applications, call us to talk through your requirements.

RANGE:

We recommend this range for bay widths up to 14m and portal spans up to 18m.

Steelbone Bird Proof Purlin

***FARM, COMMERCIAL AND
LIGHT INDUSTRIAL RANGE***

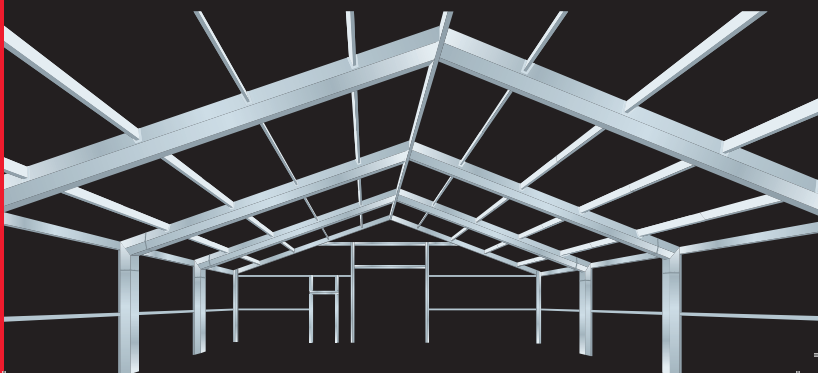

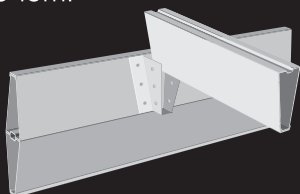

The new innovative Steelbone purlin range is set to revolutionise the steel shed industry. This exclusive product provides an enclosed steel section with no visible roof or wall fixings, which is vermin proof .

This range has a greater capacity than other bird proof options including sawn timber solutions, spanning up to 10m and is simple to install, reducing construction costs. The clean design partnered with the strength and durability of steel provides a new option for farm, commercial and industrial buildings.

RANGE:

We recommend this range for bay widths up to 10m or spans up to 15m.

Concrete Tilt Panel Buildings

COMMERCIAL AND INDUSTRIAL RANGE

Concrete panels are a modern construction method for industrial and commercial buildings.

We can design and construct your new building with concrete tilt panels either precast or cast on site. Concrete panels offer clear internal walls with only steel portals and typically no horizontal girts or bracing.

RANGE:

Any road transportable size for precast, and larger cast on site.

Timber and Pole Sheds

CLEARSPAN RANGE

If you are looking for a timber and pole shed, we have a large range available including kitset or design and build options specific to your requirements.

RANGE:

We recommend this range for bay widths up to 6m and spans up to 12m.
